THOMSONS ARE ON HONEYMOON

BOWLING GREEN, Mo. July 1.—James McIlhenny Thomson and his bride, who was Miss Genevieve Clark, daughter of Champ Clark, speaker of the National House of Representatives, are today on their honeymoon. Their trip is shrouded in mystery but rumor has it the couple motored to St. Louis and there took a train for the Great Lakes where they have had a yacht placed at their disposal.

This news comes in recovery from the excitement of having the largest wedding that ever occurred in the State. Two thousand people witnessed the ceremony on the grounds of "Honey Bluffs," the Clark home, and twice as many more crowded the streets nearby to get near on account of lack of room. Everyone in the State was invited.

Today the wedding presents, which are worth a small fortune, were removed to a bank for safe keeping in the presence of the bank president and the speaker.

PUT OFF HUERTA CASE TO JULY 12

By LEWIS T. HATSON, Special Correspondent at the International News Service.

EL PASO, Tex. July 1.—The hearing of General Victoriano Huerta and General Pascual Orozco, on charges of conspiracy to violate the neutrality laws of the United States, was postponed today until July 12. Similar action was taken by United States Commissioner Oliver in the case of the four other Mexicans alleged to have played a smaller part in the conspiracy.

The postponement was taken to avoid the arrival of a Federal judge and witnesses who are supposed to be in New York, Chicago, New Orleans and in other cities.

Great precautions are being taken, both to guard Huerta from attack and at the same time to prevent any attempt on his part to escape to Mexican soil.

Nicolas Diaz Lombardo, Foreign Minister in the Villa cabinet, left for Washington today to lay before President Wilson a peace plan, said to encompass the surrender of eight men by Villa and Carranza, who shall have a provision, President Wilson said.

Reports reaching El Paso from Mexico City today are to the effect that the capital is in the hands of mobs which are robbing and looting, without check. It is said the situation has been reported to the State Department at Washington by the Brazilian minister, but that no mention of attacks on foreigners or foreign property. It is indicated that the Zaphre, force cannot long be compelled to return southward.

MISS JOSEPHINE TRINGALI to be Boston's first Italian "War Bride."

Boston's first Italian "war bride" will be Miss Josephine Tringali, who on Sunday will wed Joseph Mantolillo and then bid him farewell when he leaves for Italy to fight.

Miss Tringali, who is nineteen years of age, is the daughter of a family of Italian immigrants who have been in the city for many years. She is a native of the North End and is a member of the Sacred Heart Church in North Square.

The ceremony will be performed at 12 o'clock, and will leave for Italy.

JUDGE SCORES CHASE FOR AGENT

Secretary J. Frank Chase of the Watch and Ward Society was criticized from the bench of the East Boston District Court today by Special Justice Charles J. Brown for having in the employ of the organization a man whom the judge characterized as "this user of drugs, this drug fiend."

Michael Carbone, whom Secretary Chase admitted to be one of the society's agents, was found guilty and sentenced to three months in the House of Correction on a charge of having morphine in his possession. He appealed and was held in \$100.

Carbone, who said he lived on Washington street north, in Boston, testified that he was at the Long Island Hospital from April 5 to May 5, and left there as cured of the drug habit. He said he was then employed by the Watch and Ward Society to obtain for the name of drug users and get other evidence to be used in the organization's crusade.

CHASE QUESTIONED.

"This is a singular case," observed Judge Brown. "I cannot understand how this drug user, this drug fiend, should be employed by the Watch and Ward Society."

Judge Brown then called Secretary Chase to the stand. The latter said: "It is true, your Honor, that Carbone was an agent of the society. It looks singular, in view of the evidence of the case, that we should have him employed by us."

"However, it is a thing which in which we can find out who are the users of drugs. We depended on this man for many of our tips as to the legal sales of use of drugs."

THE AGENT ANSWERED.

Judge Brown then said: "That doesn't help matters. This man had been in his possession and I am going to sentence him."

Edward Williams, "Miss Doyle," twenty-four years of age, of Tremont street address, was arraigned on the same charge as Carbone. He pleaded guilty and accepted a sentence of three months.

Patrolman Stephen Hayes of East Boston testified he found the defendants at the North Ferry house, sitting strangely. He took them to the auction house, where several tables were found on each. The tables were used to clean the bodies of the prisoners from morphine.

The new law against any kind of curtain or screen or other obstruction in front of booths in restaurants where intoxicating liquors are served went into effect today. The law was passed at the session of the police, hearing close watch through the city.

This law was part of the so-called "white slave" legislation which was passed at the last session with a view to protecting the public from the influence of the underworld. It is now in force in all the licensed places. A number of the police are especially detailed today to visit the booths and to report the least violation of the "open booth" law.

RUSSIAN TROOPS AND CROOK PURSUERS ON THE DANUBE

By FRANCIS LAYELLE MURRAY.
Special Correspondent of the International News Service.

BUDAPEST, July 1.—The Russian troops have been pursuing their pursuers, and a great battle is being fought in the district of Poland about Tarnobrzeg, where General Tschakowsky's army crushed the Austrian army of General Auffenberg and Dabek.

In the swamp between the Vistula and Bug rivers, the Russians have broken their force for a stand against the German hosts and the fighting is going on night and day, according to the latest reports received here.

The War Office issued a statement this morning announcing the results of several attacks by the German west of the Bug and also on the Glinia line in Galicia. The statement also told of a success won by the Russians opposing the German advance on the Vistula River near Halicz.

TEUTONS DRIVEN BACK.
Suddenly taking the offensive on the Russian front, the Russians attacked the German and drove them back. The War Office statement follows: "The enemy's advance between the Vistula and the Bug river continues to the district west of the Bug and also on the Glinia line. We successfully repulsed several attacks by the enemy on Monday and Tuesday."

"Having observed the passage of the enemy across the Danube near Halicz, our troops took part in a surprise attack on the enemy back in a surprise attack. We took hundreds of prisoners."

NAVY BATTLE IN BALTIC.
Widow, an important Russian port on the coast of the Baltic Sea, and coast terminals of a railroad leading to Minsk and Higa, was bombarded by a German naval squadron on Monday. The Russian Admiralty announced.

A German torpedo boat struck a mine and was destroyed. Russian torpedo boats engaged the German ships and forced them to retire. The admiralty report of the German squadron's successful attack upon Widow follows.

On Monday a detachment of German vessels comprising a coast guard battleship, four light cruisers and a flotilla of torpedo boats bombarded Widow and tried to effect a descent upon the coast. They were repulsed. One of the hostile torpedo boats struck a mine and was blown up.

It stops the itching, it forms a tight covering over the sore places on the skin, thus excluding air and water, and it sets up the healing process. In many instances you can get and feel a distinct improvement in less than 24 hours. The secret is in such a good remedy that a list of such ingredients it contains is printed upon each box. People who have been unable to find relief in any other remedy are entitled to know that it is made of such good ingredients that it is safe to use if they desire. Secret remedies are going out of fashion, and Cadam was among the first to show what it is made of. Get a box of your druggist and try it.

AUSTRIAN HEADQUARTERS, VIA VIENNA, BERLIN AND AMSTERDAM, JULY 1.
—Austrian forces are now pressing forward the great Russian fortress of Frangar on the Vistula River from two directions, the west and the south.

The German forces that for many months have held positions on the east bank of the Vistula River are now pressing forward in pursuit of the Russians, who had withdrawn from the Kleise region because of the Austro-German advance in northern Galicia, where large bodies of troops from Fritz Franz von Mackensen's army are advancing northward to strike the Russian front.

It is at this advancing, which forms the main protection for Warsaw from the south, that the next great blow of the "Teutonic" army is being attempted to storm Warsaw. The attack is being made by the main force of the Austro-German offensive.

TURKISH TRENCHES CAPTURED TO THE EAST OF SAGHIR DERE.
LONDON, July 1.—A British official statement dealing with the operations in the Dardanelles announces that two lines of Turkish trenches have been captured to the east of Saghir Dere, and that three lines have been stormed to the west of that place.

A French official communication from the Dardanelles says: "Since our success of June 21, the French troops have been engaged in special operations intended to surround the Turkish positions. They have occupied several new trenches and have been using the works conquered in these operations. After an intense bombardment, the British captured a great four Turkish lines at certain points, and advanced nearly 1,000 meters. They also occupied, on the extreme left, an eminence on which the Turkish machine guns were mounted. The night was crushed, the enemy's positions were rendered untenable."

—Austrian forces are now pressing forward the great Russian fortress of Frangar on the Vistula River from two directions, the west and the south.

The German forces that for many months have held positions on the east bank of the Vistula River are now pressing forward in pursuit of the Russians, who had withdrawn from the Kleise region because of the Austro-German advance in northern Galicia, where large bodies of troops from Fritz Franz von Mackensen's army are advancing northward to strike the Russian front.

It is at this advancing, which forms the main protection for Warsaw from the south, that the next great blow of the "Teutonic" army is being attempted to storm Warsaw. The attack is being made by the main force of the Austro-German offensive.

TURKISH TRENCHES CAPTURED TO THE EAST OF SAGHIR DERE.
LONDON, July 1.—A British official statement dealing with the operations in the Dardanelles announces that two lines of Turkish trenches have been captured to the east of Saghir Dere, and that three lines have been stormed to the west of that place.

A French official communication from the Dardanelles says: "Since our success of June 21, the French troops have been engaged in special operations intended to surround the Turkish positions. They have occupied several new trenches and have been using the works conquered in these operations. After an intense bombardment, the British captured a great four Turkish lines at certain points, and advanced nearly 1,000 meters. They also occupied, on the extreme left, an eminence on which the Turkish machine guns were mounted. The night was crushed, the enemy's positions were rendered untenable."

The Secret of the "Twilight Sleep"

"Back of nearly every woman's argument that she cannot give up her work or her pleasure to have a child or that 'they cannot afford' to have one, or that she doesn't want one, lies an unconscious but controlling fear of childbirth."

"My mother often said that I was too high-strung, too sensitive to pain; that if I ever tried to have a child I would surely die. The suggestion that I would die in childbirth had been too deeply implanted for me to get rid of it by a conscious act of will."

So writes the last American woman who went to Freiburg to take the "Twilight Sleep," in an amazing article published in July Good Housekeeping Magazine.

She was in Freiburg when the war broke out. With the opening of hostilities she went into the interior of Germany to be out of the danger zone, but just before her baby was born she made the three-hundred mile automobile trip—most of it at reckless speed—back to the clinic at Freiburg. The doctors had gone to the front, but she was attended by an interne and the head nurse.

She gives an unusually frank account of her experiences and a searching analysis of her emotions, but underlying all is the glowing truth of the mental preparation to undergo the present generation toward childbirth. It is the real secret of the "Twilight Sleep." Read

13 NEW ARRESTS IN R. I. VOTE FRAUD BRINGS TOTAL TO 30

PROVIDENCE, July 1.—Thirteen more arrests were made today in the Rhode Island election scandals which have resulted in the indictment of thirty-five men in North Providence and Coventry alone.

The Federal officials claim the election in the Second Congressional District was marked by bribery in new and picturesque forms.

Seventeen North Providence men have already been arrested. The 13 arrested in Coventry today bring the total to 35.

Five more men are under indictment, one in North Providence and four in Coventry.

In North Providence voters were given red and blue tickets, which, it is claimed, had a par value of \$2 in certain hotels and saloons, and which could be redeemed at that price in a North Providence cottage, where a mysterious band came through a curtain, received the voter's ticket and gave a \$2 bill in exchange of the ticket.

In Coventry, however, the method was even more picturesque, the Federal officials say.

They claim that certain men stood at the door of the cottage and as the voters came along, and by a nod indicated the proper person to their assistance.

PAVEMENT AT POLLS.
These assistants then waited till the voter emerged from the polls, when they approached the men with the greeting:

"Have a cigarette."

They would extend an open cigarette box, the officials say. The box contained cigarettes, but upon the cigarettes lay a brass check.

These checks, the officials say, were later redeemed by the voters at the polls, where the voters used in North Providence.

However, where it was the usual method, the price for votes in North Providence, it is claimed, was \$2.50, the customary figure in Coventry.

When the men arrested today appeared before Federal Judge Arthur T. Brown the courtroom was full of voters who had come to see the proceedings. All Rhode Island is uneasy, for word has gone out that the Federal officials are planning to arrest more.

ACTRESS TELLS SECRET
A Well Known Actress Tells How She Darkened Her Hair and Promoted Its Growth With a Simple Home Made Mixture.

Mrs. Blanche Ross, a well-known actress, who darkened her gray hair with a simple preparation which she also used at home. In a recent interview at Chicago, Ill., made the following statement: "Any lady or gentleman can darken their gray hair and make it soft and glossy with this simple recipe, which they can mix at home. To a half pint of water add 1 oz. of bay rum, a small box of Barbo's Compound, and 1 oz. of glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until it becomes the required shade. This will make a gray haired person look 20 years younger. It is also time to promote the growth of hair, relieve itching and scalp humors, and is excellent for dandruff and falling hair."

AN EASY WAY TO INCREASE WEIGHT

Good Advice for Thin Folks

The trouble with most thin folks who wish to gain weight is that they think on increasing their stomachs, or stuffing it with great quantities of food, or eating "rich" or "heavy" food. The real cause of thinness is not a weak stomach, but a poor circulation of the blood. The blood is the life of the body, and it is the blood that carries the food to the cells and carries away the waste. If the blood is poor, the cells will not get the food they need, and the body will be thin.

Mayor's Auto to Be Dismembered and Stacked Up

Well, they're going to take Mayor Curley's Essex official municipal auto all apart, just to keep him out of it while he's on his trip to the coast.

The Mayor's office staff was forced to disengage themselves when every Tom, Dick and Harry began to put in application for a trip in the car because it was being used.

That settles the problem as far as one city auto is concerned. But the city chauffeurs complain that they aren't leading the life of ease since Mayor Curley went into States.

They say their eight-hour schedule has been shut to pieces, and that often they don't get home until 10 or 11 o'clock at night and sometimes not till midnight.

The chauffeurs, and there are about forty of them on the city payroll, blame their troubles on the subordinate city officials who have to be taken to the stationhouse whenever at night and called for there in the morning.

Some of the city officials, who are called for there in the morning, are called for there in the morning.

HALE WOULD KEEP PARTY INTACT

Matthew Hale, Progressive leader, is in town today consulting his physician. He gave out a statement regarding his ideas as to the future policy of the Bull Moose party. He said: "I am as strongly opposed to any compromise with the standard Republican organization in Massachusetts today as I was in 1912. I believe just as strongly in those principles," he said, "as I did when the Progressive party was formed. Immediately after the Chicago convention in 1912."

"I believe the party organization should be continued intact in Massachusetts, and I approve of the action of the majority of the state committee in adopting a resolution at the meeting last Saturday providing for a continuance of the party business."

The building is at No. 124 Massachusetts avenue and Pugh was standing near when he fell.
